- (13.00 - 15.00)

Description
We are ABRA Software, a dynamic technology company that develops and supplies advanced information systems. To help entrepreneurs and managers around the world have a perfect overview of their company, we take the administrative tasks from them and allow them to make the right decisions instead. Together we look for areas to improve and use IT as a strategic asset. In the 25 years of experience, we have successfully installed the robust ERP system for large and medium-sized companies over a thousand times.
